Home School Programs

Home School Classes at River Legacy Living Science Center enrich home studies by providing hands-on, interactive experiences in science. Classes draw on the collections and specimens of River Legacy Living Science Center for indoor investigations. Outdoors, the students will explore the plants, animals and environment of River Legacy Parks.

Home School Classes meet once a month from 2 to 4 pm from September through April (except December) the second Wednesday of the month.

Science Classes cost \$145 for the yearlong series. Class space is limited and is available on a first-come, first-served basis (wait lists available). Transportation must be provided by the parent or guardian.

Home School Science Classes:

5 to 6 years

7 to 8 years

9 to 11 years

(limit 12 students in each age group)

2017 - 2018 Class Schedule
