

## Summer 2021 – Policy and Procedure Updates

**Until COVID-19 is no longer a serious concern, we will follow these policies to protect our students, families and staff.**

### **Drop off:**

In the atrium you will see check in points before you and your child can proceed to sign-in for their class. As you wait for your turn, please remember to stay socially distant from the person or group in front of you. The check-in points allow our staff to perform temperature checks on each person - students and adults dropping off. At the recommendation of the state and local health department, any student who registers a temperature greater than or equal to 100.0 degrees must leave the nature center's premises.

**It is highly recommended that no additional people come in to drop off students.**

### **General Health Protocols**

If your student has any of the following symptoms, please keep them home or proceed to the doctor to get clearance to attend camp.

- Fever of 100.0 degrees or higher
- Cough, shortness of breath, trouble breathing
- Close contact with someone diagnosed with COVID-19, anyone suspected of having COVID-19 or anyone with a respiratory illness in the past 14 days
- Headache, chills, muscle aches, sore throat, loss of taste or smell, diarrhea

### **Personal Protective Equipment**

Face coverings are recommended for all non-vaccinated guests.

### **Hand washing/sanitizing**

Students and staff will follow healthy hygiene practices such as frequent hand washing for 20 seconds and avoiding touching your face with unwashed hands. Hand sanitizer will be available throughout the center and in each classroom.

### **Cleaning Crew**

River Legacy Nature center has a professional cleaning crew dedicated to executing essential elements of our hygiene plans nightly.

### **Late arrivals**

If you arrive after the regular drop off time, please stop at the front desk and let the attendant know so they can get the appropriate staff member to facilitate the screening for you.
